Ongole, IN

upto April 2017

## PROJECTS

### SuperApp | - Project Link | [React.js](#), [APIs](#), [Git](#), [Netlify](#)

Jan. 2024

- Developed SuperApp web application using React.js. Created registration page for SuperApp.
- Upon Sign Up, app requests user to select their preferred Genre
- Upon selecting the Genre, user is navigated to interactive Home Page.
- In Home page, the user can check his details, write notes, and use a timer for his tasks. The user can see details like the weather and news of the day. And upon browsing, the app recommends movies according to selected Genre.

### Weather Application | - Project Link | [API](#), [JavaScript](#), [HTML](#), [CSS](#), [Git](#), [Vercel](#)

Nov. 2023

- Designed and implemented the user interface using HTML and CSS
- Developed a Weather Web Application which retrieves data like temperature, Humidity, Wind Speed using APIs
- Ensured seamless functionality across multiple devices and platforms. Used Vercel for Deployment

### Rock Paper Scissors Game | - Project Link | [JavaScript](#), [HTML](#), [CSS](#), [Git](#), [Vercel](#)

Nov. 2023

- This is a customized Rock Paper Scissors game designed by Cuvette and developed by me for a capstone project
- Implemented the user interface using HTML, CSS
- Implemented game logic using JavaScript
- Used the Local Storage to store the scores of Player and PC in the game
- Used Vercel for Deployment

## TECHNICAL SKILLS

**Languages:** C Language, Java, HTML, CSS, JavaScript

**Libraries/Frameworks:** React.js, Node.js, Express.js

**Data Bases:** MongoDB

**Developer Tools:** Git, GitHub, VS Code, IntelliJ

## CERTIFICATIONS

**MERN Stack, JavaScript, CSS , HTML, Java, C Language**

Sept. 2023 - Jan. 2024

[Prepinsta.com](#)

## STRENGTHS

- Detail-Oriented
- Tech-Savvy
- Self-Motivated
- Adaptable

## HOBBIES

- Chess, Listening to Podcasts, Books
